

WHAT YOU SHOULD KNOW ABOUT COVID-19

Novel Corona Virus

An Update From Our Dental Practice

At our practice, all of our team are trained in advance hygiene etiquette, referred to in medicine as Universal Precautions. This approach to infection control includes regularly cleaning and disinfection of often touched objects and surfaces in between each patient's appointment.

However, based on the ADA's recommendation of "social distancing", and in an effort to help slow the spread of the COVID-19 virus, **we are currently suspending non-essential dental care**. As health care professionals, we have a role to play in "flattening the curve" and following sound, scientific public health advice.

What About Your Existing Appointments?

We value you and your health and will be available for dental emergencies. We will be reaching out over the next week to reschedule your dental appointment, and will be suspending our regular cancellation policy.

If you have any questions, we encourage you to call us. We are dedicated to protecting you and your smile.
